

A person wearing a white button-down shirt is using a small, handheld Xstamper device. The device has a black top with the 'Xstamper' logo and a grey base with a 'PUSH' button. The person's hands are positioned to use the device on the fabric of the shirt. On the left chest of the shirt, there is a blue and black logo that reads 'Xstamper' and 'THEY'RE JUST MADE BETTER' below it. The person is also wearing a thin necklace with a small pendant.

Xstamper
THEY'RE JUST MADE BETTER

Pre-inked Industrial Stamps

Make your mark almost anywhere with the new pre-inked Industrial Stamps from Xstamper®. Our proprietary ink formulation is fast drying*, permanent and water resistant when fully cured. Uniquely designed caps are engineered to minimize ink from drying out, extending the functional life of the stamp. These stamps are ideal for marking any slick or hard to mark surface such as metal, glass, plastic, leather, gloss paper, etc. See application chart on page 12.

Re-Inking Industrial Stamps

**F06
F11
F16
F20**

1. Remove cap and place face down.
2. Hold stamp handle firmly and pull out die holder from handle.
3. Place die holder on top of removed cap with impression die facing down. Hold die firmly and remove top plug.
4. Place one drop of ink into the F06 opening and add 5 drops into the F11 opening.

F30

1. Unscrew cap and hold handle vertically. Use bottom of cap to remove die holder. Insert bottom of cap into die holder and turn handle counter clockwise to remove die holder.
2. Place 25 drops of ink into the opening.

F10

1. Remove the holder and take off the handle. Place 10 drops of ink into the openings.

Industrial Refill Ink & Stamp Pads

Artline Hi-Seal industrial inks are formulated to perform under the harshest conditions encountered in today's manufacturing world. Whether you need it to stick to a glossy, non-porous surface, be waterproof, mark food products or glow under a UV light source, Artline has you covered. Our Industrial Stamp pads use an air-tight roller lock to ensure a long life for the inking surface. They are available in three convenient sizes.

Artline® Hi-Seal 430

- 20 second dry time
- Perfect for use in self-inking stamps
- For use on all non-porous surfaces

Custom Quotes — Industrial Products

With our full line of custom banded Steel and Neoprene Stamps. We can create a custom impression for your specific industrial marking needs. Contact your sales rep for pricing and ordering details.

Custom Banded Stamps

Create custom bands with all your frequently used phrases and codes or add letters to your number stamp. Available in self-inking or traditional type stamps. Please provide specific details, for example: phrases, codes, size of impression, self-inking or traditional type, when requesting a quote from your sales rep.

RIBtype® Letter & Figure Sets

The RIBtype® system allows for quick changes of text. It's ideal for date coding, lot number changes and creating custom messages. Precisely manufactured to ensure the finest quality imprints and perfect alignment every time. Letter and figure type sets are available in both custom and over 35 stock styles. Please provide character height and impression size dimensions when requesting a quote from your sales rep.

Steel Stamps

Our custom engraved Steel Stamps are manufactured from top quality M-2 steel for precision marking. They are perfect for use in machine shops, metal stamping and fabrication companies to stamp part or serial numbers on steel or other difficult to mark surfaces. We offer several different styles including flat face, sharp face, round face and dot face. Perfect for machine shops, metal stamping and fabricating companies to stamp logos and part numbers. Contact your sales rep for details and pricing.

Neoprene Stamps

Our neoprene rubber is laser engraved to provide an impression to your exact specification. These stamps include a protective metal cap for your convenience and are fully compatible with all of our industrial inks.
